Comment on Ethylene Glycol Prop 65:

The toxicity data collected on Ethylene Glycol by OEHHA specifically states that it is tied to oral consumption. Polyester fiber and yarn products do not contain EG in a form that is available for consumption. These products are also not intended to be a food source for humans or animals and present no reasonable risk of EG exposure through normal, intended use.

Thank you for the opportunity to comment. If you have any further questions, please feel free to contact me.

About Unifi

Unifi, Inc. is a multi-national manufacturing company that produces and sells textured and other processed yarns designed to meet customer specifications, and premier value-added (“PVA”) yarns with enhanced performance characteristics. Unifi maintains one of the textile industry’s most comprehensive polyester and nylon product offerings. Unifi enhances demand for its products, and helps others in creating a more effective textile industry supply chain, through the development and introduction of branded yarns that provide unique performance, comfort and aesthetic advantages. In addition to its flagship REPREVE® products – a family of eco-friendly yarns made from recycled materials – key Unifi brands include: SORBTEK®, REFLEXX®, AIO® – all-in-one performance yarns, SATURA®, AUGUSTA®, A.M.Y.®, MYNX® UV and MICROVISTA®. Unifi’s yarns are readily found in the products of major brands in the apparel, hosiery, automotive, home furnishings, industrial and other end-use markets. For more information about Unifi, visit www.unifi.com; to learn more about REPREVE®, visit www.REPREVE.com.
