Food Warnings

Current Examples

Fish

![Image by California Attorney General’s Office](image_url)

Fish and seafood—such as fresh fish, fish, canned, and other are known to contain mercury and other reproductive harm. Certain fish contain higher levels than others. Pregnant and nursing women, women who may become pregnant, and young children should not eat the following fish:

- Swordfish
- Shark
- King Mackerel
- Tilefish

They should also limit their consumption of other fish, including tuna.

Balsamic Vinegar
