May 30, 2014

George V. Alexeeff, PhD
Director
Office of Environmental Health Hazard Assessment
1001 I Street
Sacramento, CA 95814

Dear Dr. Alexeeff:

On February 29, 2012, we wrote you to petition for an amendment to the Administrative Code to provide for clearer warnings about the hazards of alcohol consumption during pregnancy. On April 5, 2012, you responded with a very positive letter saying that our suggestions have merit and OEHHA will consider them. You encouraged us to monitor the OEHHA public notices and encouraged us to participate in the process of updating your regulations.

Since then, we have monitored the notices as you suggested but have seen nothing there and have heard nothing from OEHHA. Have we missed something? If not, when do you intend to take up our petition?

Sincerely,

[Signature]

Tom Anderson
